

Class A - F Record of Driver Examination (Part A)

Ontario driver's licence number

Date of birth

Current class

Current condition

Last name, first name and middle initial

Street number and name or lot, conc. and township

Apt. No.

City, Town or Village

Postal code

Plate number(s)

Class of road test conducted

Airbrake endorsement

Yes No

Vehicle configuration

Full A Restricted A

Transmission type

Auto Manual

Yes No

1. Do you require glasses or corrective lenses for driving?.....

Applicant's signature

X

I certify that the statements on this application are correct. Under the Highway Traffic Act (HTA), the maximum penalty for making a false statement is a fine and/or imprisonment and/or a driver's licence suspension.

Item	Exterior inspection	In-Cab check	Item	Interior inspection
	Demonstrate / Defect / Describe	Starts vehicle / Gauges / Air pressure gauge and indicators / Driver seat and seat belt / Mirror and windshield / Heater / Defroster controls / Steering wheel / Wipers and washers		Demonstrate / Defect / Describe
	Demonstrate / Defect / Describe			Demonstrate / Defect / Describe
	Demonstrate / Defect / Describe			
	Demonstrate / Defect / Describe			

Daily inspection total: ▶

Uncoupling	Coupling
Secure truck/tractor and trailer • Fails to: ensure both truck/tractor and trailer parking brakes are applied; place transmission in park/neutral; ensure trailer wheels are chocked properly.	Inspection (5th wheel) • Fails to: inspect 5th wheel/truck coupling device; air; electrical connections; chain connection points as applicable.
Lower landing gear • Fails to: confirm the ground is level and secure; stow the landing gear handle (5th wheel). • Landing gear too high or too low.	Position truck/tractor and trailer units • Fails to: activate 4-way flashers; sound the horn before reversing; secure truck/tractor; inspect upper coupler plate; connection points; king pin; trailer air and electrical connections; align the truck/tractor correctly with the trailer; set trailer height correctly. • Too fast; truck-tractor too far ahead/too far under trailer.
Disconnect and stow air and electrical lines / safety chains or cables • Fails to: disconnect and secure air or electrical line(s); disconnect and secure safety chains or cables.	Engage and test (5th wheel) • Fails to: properly engage 5th wheel; stretch tractor and trailer; secure tractor. Engage and test (non-5th wheel) • Fails to: properly align coupling device with the trailer connection point; secure truck; adjust trailer position/height as necessary to complete coupling; connect the chains or cables crossed.
Unlock coupling device • Fails to: unlock coupling device.	Confirm lock (5th wheel) • Fails to ensure: no space above 5th wheel; release lever in locked position; 5th wheel jaws or locking lever latch has closed around the kingpin.
Non-fifth wheel • Fails to: raise trailer high enough; confirm the trailer is stable and secure; stow the landing gear handle.	Confirm lock (non-5th wheel) • Fails to ensure: coupling device is locked; secondary locks are secured; connection points, chains and hooks are properly connected.

Daily Inspection Test Items

Exterior inspection items

- | Item | Daily inspection items |
|---------------|---|
| 1 | Slow air pressure build-up rate. |
| 2 | Audible air leaks - Air loss rate exceeds the prescribed limit. |
| 3 | Pushrod stroke of any brake exceeds the adjustment limit. |
| 4 | Inoperative towing vehicle (tractor) protection valve. |
| 5 | Low air warning system fails or system is activated. |
| 6 | Occupant compartment door fails to open. Any cab or sleeper door fails to close securely. |
| 7 | Coupler or mounting has loose or missing fastener. |
| 8 | Coupler is insecure or movement exceeds prescribed limit. |
| 9 | Coupling or locking mechanism is damaged or fails to lock. |
| 10 | Defective, incorrect or missing safety chain/cable. |
| 11 | Exhaust leak, except as described below. Exhaust leak that causes exhaust gas to enter the occupant compartment. |
| 12 | Damaged frame or cargo body / Visibly shifted, cracked, collapsing or sagging frame member(s). |
| 13 | Missing fuel tank cap / Insecure fuel tank / Dripping fuel leak. |
| 14 | Required mirror or glass has broken or damaged attachments onto vehicle body. |
| 15 | Brake fluid level is below indicated minimum level / Brake fluid leak / Brake fluid reservoir is less than ¼ full. |
| 16 | Air leak in air suspension system / Damaged (patched, cut, bruised, cracked to braid or deflated) air bag. |
| 17 | Broken spring leaf / Cracked or broken main spring leaf or more than one broken spring leaf / Part of spring leaf or suspension is missing, shifted out of place, in contact with another vehicle component. |
| 18 | Suspension fastener is loose, missing or broken / Loose U-bolt. |
| 19 | Tire leaking, if leak cannot be heard / Flat tire / Tire leaking, if leak can be felt or heard. |
| 20 | Damaged tread or sidewall of tire / Tire tread depth is less than wear limit / Tire is in contact with another tire or any vehicle component other than mud-flap / Tire has exposed cords in the <i>tread or outer sidewall area</i> . |
| 21 | Hub oil below minimum level (when fitted with sight glass) / Leaking wheel seal / Evidence of imminent wheel, hub or bearing failure. |
| 22 | Wheel has loose, missing or ineffective fastener / Evidence of imminent wheel, hub or bearing failure. |
| 23 | Damaged, cracked or broken wheel, rim, attaching part / Evidence of imminent wheel, hub or bearing failure. |
| 24 | Broken spring leaf / Cracked or broken main leaf spring or more than one broken leaf spring / Part of leaf spring or suspension is missing, shifted out of place, in contact with another vehicle component / Broken spring on other than a leaf spring system. |
| 25 | A lamp is missing or inoperative / Lamps do not alternate / A lamp is not of the proper colour. |
| 26 | A window or door fails to open or close securely / Door fails to open or close securely when carrying passengers. |
| 27 | Required alarm is inoperative / When carrying passengers: Window fails to open from inside or close securely / Door fails to open freely from inside and outside / A required door alarm is inoperative. |
| 28 | Insecure or missing body parts / Insecure or missing compartment door / Damaged frame or body / One or more visibly shifted, cracked, collapsing or sagging frame member. |
| 29 | Insecure or missing body parts / Insecure or missing compartment door / Damaged frame or body / Visibly shifted, cracked, collapsing or sagging frame member. |
| 30 | Insecure or missing body parts / Insecure or missing compartment door. |
| 31 | <i>Mirror has broken or damaged attachments onto vehicle body / A mirror is missing or broken / The glass surface of a mirror has an aggregate non-reflective area exceeding 6.5 square centimeters.</i> |
| 32 | The arm is missing or fails to function as intended. |
| 33 | If equipped with flashing lamps to illuminate letters of the word "STOP", any lamp is partially or wholly inoperative / Stop arm or stop sign is missing / Stop arm or stop sign is damaged so as to significantly affect visibility / Will not extend fully or stay fully extended / Either light on stop arm is inoperative or lights do not alternate or lights are not red. |

Interior Inspection Items:

- | | |
|--------------|--|
| 1 | Driver seat. |
| 2 | Emergency equipment and safety devices. |
| 3 | Heater / Defroster. |
| 4 | Glass and mirrors. |
| 5 | Windshield wiper / Washer. |
| 6 | Passenger compartment. |
| 7 | Emergency equipment and safety devices. |
| 8 | Seat and seat belt. |
| 9 | Doors and emergency exits. |

Important Note to Driver

The examiner has used the following code to score your driving test:

Daily Inspection:

- The item tested will be identified with a number in the "Item" column which you may reference on the back of page 1.
- If the inspection of the item was performed incorrectly and requires improvement the examiner will underline 1 or more of either "Demonstrate / Defect / Describe"

how you would inspect the particular item.

- If "Defect" was underlined this means you failed to explain what the defect(s) would be for the particular item.
- If "Describe" was underlined this means you failed to describe what action you would take upon identifying a minor and/or major defect.

Uncoupling/Coupling, On road and Backing:

- (/) Means manoeuvre was performed incorrectly and requires improvement.
- Items that have been scored more than once require your special attention. These items may indicate an incorrect driving habit or improper understanding of the correct method.

If passed:

- Study the items scored on the reverse side.
- Any one of these errors could involve you in a collision.
- In your own interest, we strongly advise you to correct any faults and become a safer driver.

If you did not pass:

- It may have been for any one of the following reasons:
 1. Preventable collision.
 2. Dangerous action.
